Our alumnus reviews

B. Ouma

- Not the biggest place but the quality of education is world class.
- The teachers are humble, would repeat forever for you to understand.

Mou Noon

- There is a huge diversity amongst students; From Kenyans, Sudanese, Somalis, you get to meet, talk & laugh with all.
- The administration isn't profit oriented, I once went 3 months without paying and no one pressurised me.

Maryan A.

- ATIAM College was an eye opener for me. I got a lot of experience from there that has been vital in my further studies.
- I've got to say the teachers were talented, I'd definitely recommend the school.

Mission

To develop, nurture and empower the learners with sufficient technical skills, making them self-employed or employable, financially independent and reliable to the society at large.

Vision

To be a high quality institution and a centre of excellence.
